

GRANUPLAST™

A SPECTRUM OF GRANITE EFFECTS FOR THERMOPLASTICS

Now you can give ordinary plastic the look of granite or stone with a product that is so revolutionary it's patented*. Granuplast ersatz granite compound is the simple way to set apart your product with a unique look and texture. Available in 64 colors derived from Galaxy Granules™, Granuplast offers a full range of granite effects with a variety of granule sizes. Plus, Granuplast can meet your specifications with custom-made colors that include solids.

Granuplast has virtually endless possibilities. It can be used for anything from computer housings to microwave cookware. And no matter what your needs are, our technical staff is ready to develop new techniques to meet them.

Granuplast compounds and concentrates can be made in a wide range of base materials including polyethylene, polypropylene, ABS, polycarbonate, and polystyrene.

Granuplast is as durable as it is beautiful.

The only limitation to its use is your imagination.

Granuplast can be used in the most challenging plastic applications. It gives ordinary household and office items unique looks and textures. Granuplast is FDA approved making it usable for such objects as toasters, microwave cookware, plates and glassware.

*U.S. Patent #5304592

Use Granuplast for:

- Appliances
 - Consumer electronics
 - Furniture and accessories
 - Computer housings
 - Extruded panels
 - Automotive components and trim
 - Toys
 - Sports and recreational equipment
 - Housewares
 - Telecommunication equipment and devices
-

Granuplast can be used with the following resins:

- ABS
 - Polycarbonate
 - Polyethylene
 - Polypropylene
 - Polystyrene
 - Vinyl
 - Nylon
 - Acrylic & engineering polyester resins: PCT, PT, PET, PETG
-

Characteristics of Granuplast:

- Stain and corrosion resistant
- Color consistency from batch to batch
- Available in concentrate and pre-colored form
- Available in UV stabilized grades
- Can be formulated to meet FDA, NSF and UL requirements
- Available in 64 standard colors
- Support by technical services
